EDUCATION

MSc. Artificial Intelligence (in-view)
Ecole Centrale d'Electronique (ECE), Paris, France 09/2024–08/2026

B.Eng. Petroleum Engineering: 1st Class Honors (4.80/5.00)
Federal University of Technology, Owerri (FUTO), Nigeria 12/2013–04/2019

SELECTED PROJECTS

Retrieval-Augmented Generation (RAG) System
- Developed a **RAG Chabot** for responding to queries using transformer embeddings, semantic search, and **vector retrieval**, improving response relevance and contextual accuracy. Achieved **90% accuracy** on test sample.
- **Tech:** Python, NLP, LLMs, Transformers, Embeddings, FAISS GitHub Link

Azure Serverless ML Inference Workflow (MLOps)
- Built a **serverless, event-driven** ML inference workflow using containerized APIs and Azure cloud services for scalable, production deployment, achieving **100%** function-trigger execution and successful inference.
- **Tech:** Azure Cloud Services, Python, FastAPI, Docker GitHub Link

AI-Driven Fraud Detection
- Executed an **end-to-end CRISP-DM data mining project**, delivering cleaned data, justified models, and **actionable insights** through clear visualizations, **achieving 100%** of defined business and data objectives.
- **Tech:** Python, Data Mining, EDA, Data Visualization. **Dataset:** ~500k online retail analytics data records GitHub Link

PROFESSIONAL EXPERIENCE

Innovation Analyst **12/2023–09/2024**
Nigeria Inter-Bank Settlement System (NIBSS) Lagos, Nigeria
- **Automated workflows** using Power Automate for innovative ideas analysis.
- Built data-driven solutions from disparate sources to improve decision-making.

Head, IT Governance **10/2022–12/2023**
Parallex Bank Limited Lagos, Nigeria
- Designed **data flow** diagrams to support decision making using Microsoft Visio.
- Automated IT service improvement system using Microsoft Power Automate.

Enterprise Architect **12/2020–10/2022**
Guaranty Trust Bank (GTBank) Lagos, Nigeria
- Prepared **IT strategy (2022 – 2025),** in alignment with business goals.
- Automated the Group's Internal Audit reporting process, resulting in cost savings of **$10,000+** annually.

TECHNICAL SKILLS

- **Programming & Data:** Python, Scikit-Learn, PySpark, SQL, MongoDB.
- **Machine Learning:** Supervised & Unsupervised Learning, Model Evaluation (ROC, F1, AUC), Feature Engineering.
- **Generative AI:** PyTorch, Hugging Face, Transformers, JAX, RAG, LLMs, NLP
- **MLOps & Tools:** GitHub, Google Colab, Kaggle, Microsoft Azure, AWS.
- **Other Tools:** Power Automate, Microsoft Visio
- **Data Analysis & Visualization:** Pandas, NumPy, PowerBI, Excel, Matplotlib, Seaborn, Plotly.

AI and Data-driven professional with experience in GenAI, ML, predictive analytics, and scalable data systems.

Proven record of applying AI/ML techniques to solve real-world problems and academic projects.

Actively seeking an **AI/ML/Data Science internship** starting **June 2026**.

CERTIFICATIONS

2025 Databricks Academy Accreditation – Databricks Fundamentals Link

2025 AWS Academy Graduate – AWS Academy Cloud Foundations Link

2024 Python for Data Science. Issued by DataScientest. Link

2023 ISO 20000, 22301, and 27001 Foundation. Certified by S&BP (Standards & Best Practices) Link

2022 TOGAF® 9 Foundation. Issued by The Open Group. Link

2022 Professional Scrum Master 1. Issued by Scrum.org. Link

2021 Microsoft Certified: Azure Fundamentals (AZ 900). Link

2020 Introduction to Data Analysis using Excel. Certified by Rice University, Houston, USA. Link

SOFT SKILLS

- Analytical Reasoning
- Effective Communication
- Leadership and Teamwork
- **Languages:** English (fluent), French (A2/B1)
